Web page design using bootstrap

Website link:

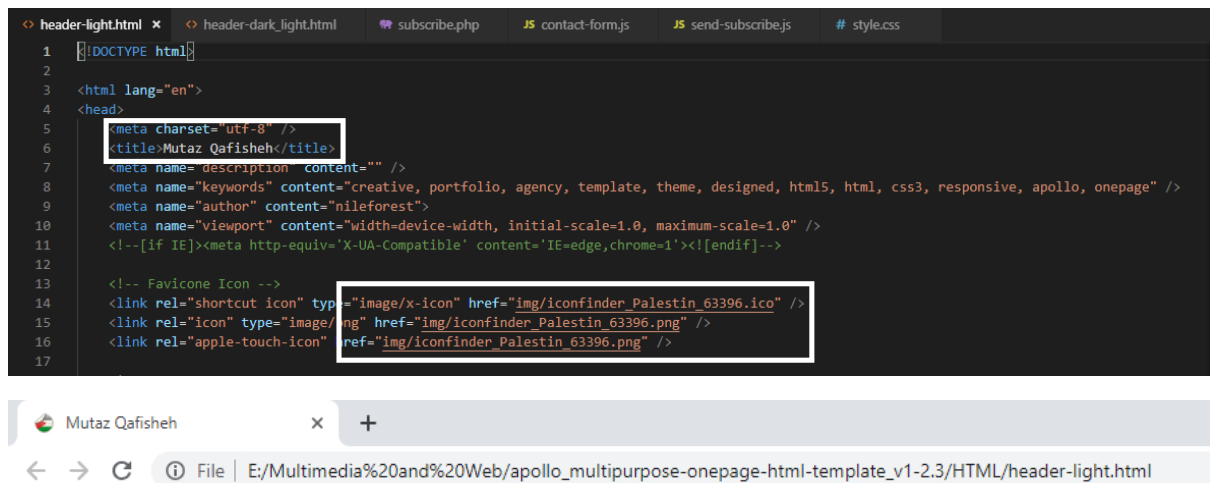

<https://mutazportofolio.000webhostapp.com/>

The main objective of this assignment is to create a potofolio web page using both bootstrap and apollo html template .

Methodology :

1. Apollp template include many html pages so the first step was to pick the suitable template for portfolio.
2. Updating the icon and title of the template.
3. Logo creation.
4. Updating the Navigation bar menu to fit the requirement.
5. Add new bootstrap element like collapse and list to organized the texts.
6. Modify the map.js file to show the desired location.
7. Create scribble map and add the map section on the html template.
8. Modify the contact.php with new email address for farther communication.
9. Using <https://fontawesome.com> website for Icon generation .
10. Update the footer section with reliable links.
11. Customize style.css file with suitable styles.
12. Uplading sample work video to personal page on youtube.
13. Uplaodind the You tube linke to Html page.
14. Add vistior Counter at the end of the page.

1. Updating the webpage Icon and title.

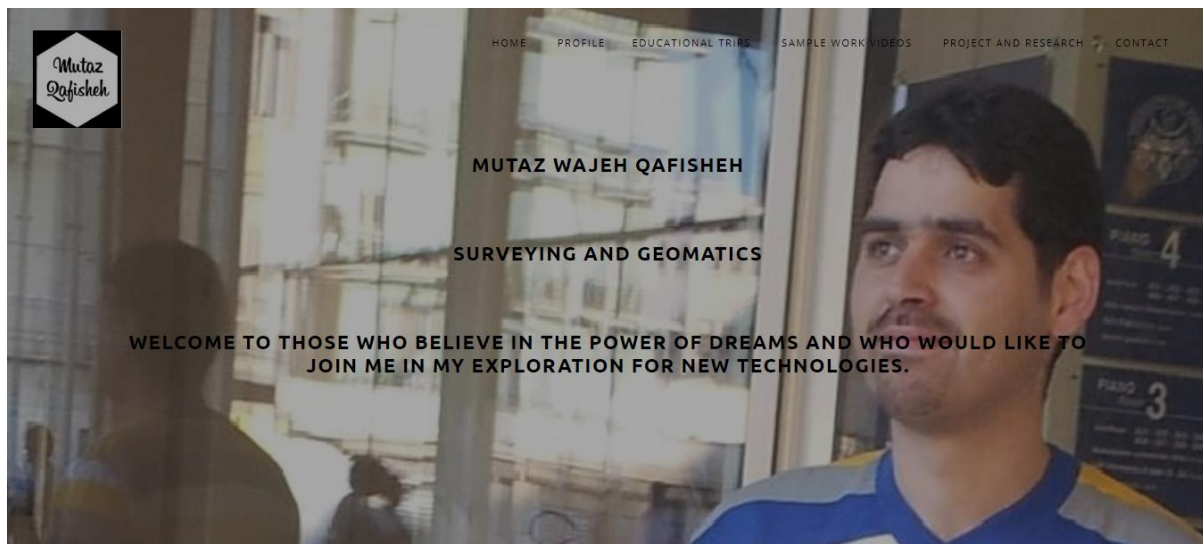

2. Logo creation and code modification

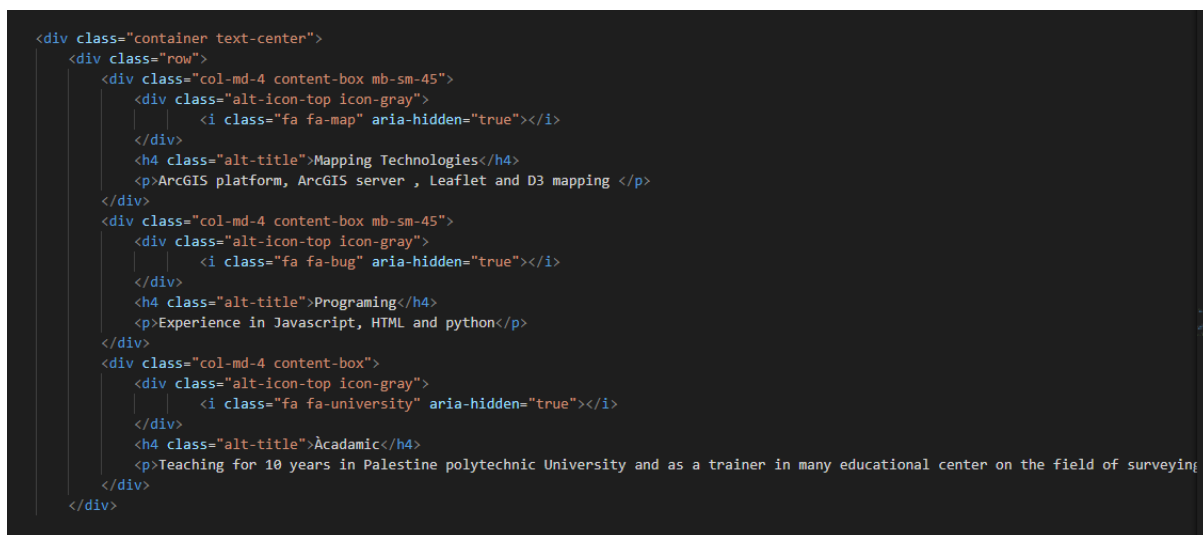

3. Modify the menu Navigation bar:

4. Modify the intro page :

5. Modify the about the section with new Icons and CSS styles:

MAPPING TECHNOLOGIES

ArcGIS platform, ArcGIS server , Leaflet and D3 mapping

PROGRAMMING

Experience in Javascript, HTML and python

ACADAMIC

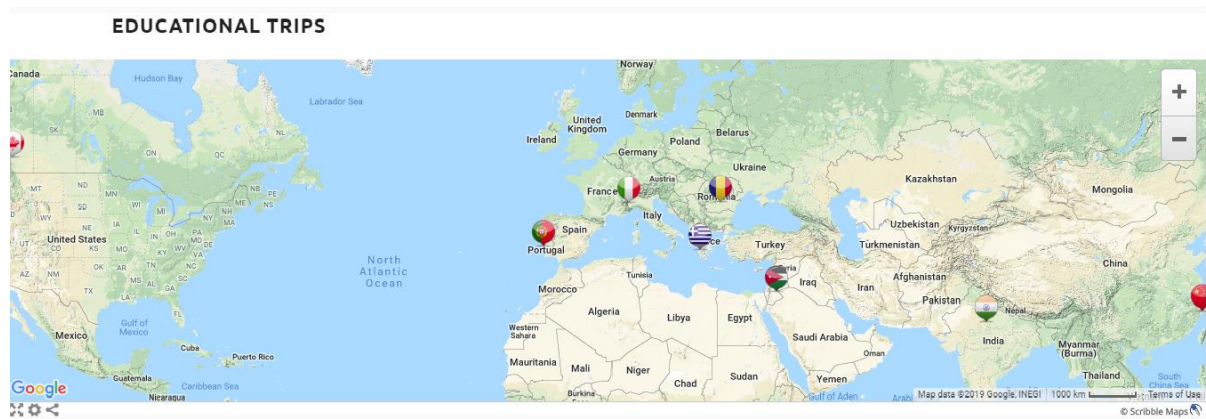

Teaching for 10 years in Palestine polytechnic University and as a trainer in many educational center on the field of surveying engineering and GIS

6. Add and modify new bootstrap element (Collapse and list).

```
<div class="card">
  <div class="card-header" id="headingTwo">
    <h2 class="mb-0">
      <button class="btn btn-link collapsed" style ="color:rgb(0, 0,0);" type="button" data-toggle="collapse" data-target="#collapseTwo" aria-e
        Training
      </button>
    </h2>
  </div>
  <div id="collapseTwo" class="collapse" aria-labelledby="headingTwo" data-parent="#accordionExample">
    <div class="card-body">
      <ul class="list-group">
        <li class="list-group-item" style=" text-align: left;">2007 :Auto Disk Land desktop (Road design) (Palestine)</li>
        <li class="list-group-item" style=" text-align: left;"> 2008 : improvement of Academic performance(Palestine)</li>
        <li class="list-group-item" style=" text-align: left;" >2009: GIS Application in Urban Planning(Palestine)</li>
        <li class="list-group-item" style=" text-align: left;">2010 :Construction Project Management(Palestine)</li>
        <li class="list-group-item" style=" text-align: left;"> 2010 :Short Course In Geo information(India)</li>
        <li class="list-group-item" style=" text-align: left;" >2012 :Comprehensive planning of Arab cities(China)</li>
        <li class="list-group-item" style=" text-align: left;" >2014 :Advanced GIS(Jordan)</li>
      </ul>
    </div>
  </div>
</div>
```

EDUCATION
TRAINING
2007 :Auto Disk Land desktop (Road design) (Palestine)
2008 : improvement of Academic performance(Palestine)
2009: GIS Application in Urban Planning(Palestine)
2010 :Construction Project Management(Palestine)
2010 :Short Course In Geo information(India)
2012 :Comprehensive planning of Arab cities(China)
2014 :Advanced GIS(Jordan)

7. Add a scribble map section I increased the width of the map to fit all the visited regions .

8. On the last website I add old video for some lecture this time I uploaded all the sample work during the semester to my YouTube page and then I add them to the portfolio page. I faced problem in showing the video in Ifram the links must be embedded to enabling watching.

```
src="https://www.youtube.com/embed/WlI7GovyJco"
```

```
<div class="row">
  <!--Post Col-->
  <div class="col-md-4 col-sm-6 mb-45">
    <!-- Post -->
    <div class="blog-post">
      <div class="post-media">
        <iframe width="560" height="315" src="https://www.youtube.com/embed/WlI7GovyJco" frameborder="0" allowfullscreen></iframe>
      </div>
      <div class="post-meta">
        <span>by <a>Mutaz Qafisheh</a></span>
        <span class="post-date">29 Jan 2019</span>
      </div>
      <div class="post-header">
```

MOBILE APP

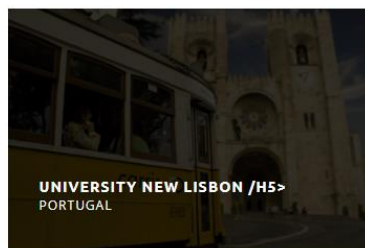

BY MUTAZ QAFISHEH, 29 DEC 2018
MAP VISUALIZATION

9. The word press website not included and photo galary section, I add new section for visited universities which shows the name of the university and the Country by clicking on the image.

VISITED UNIVERSITY

10. Updating the work section statues with suitable Icon.

MY WORKS AND RESEARCH STATUS

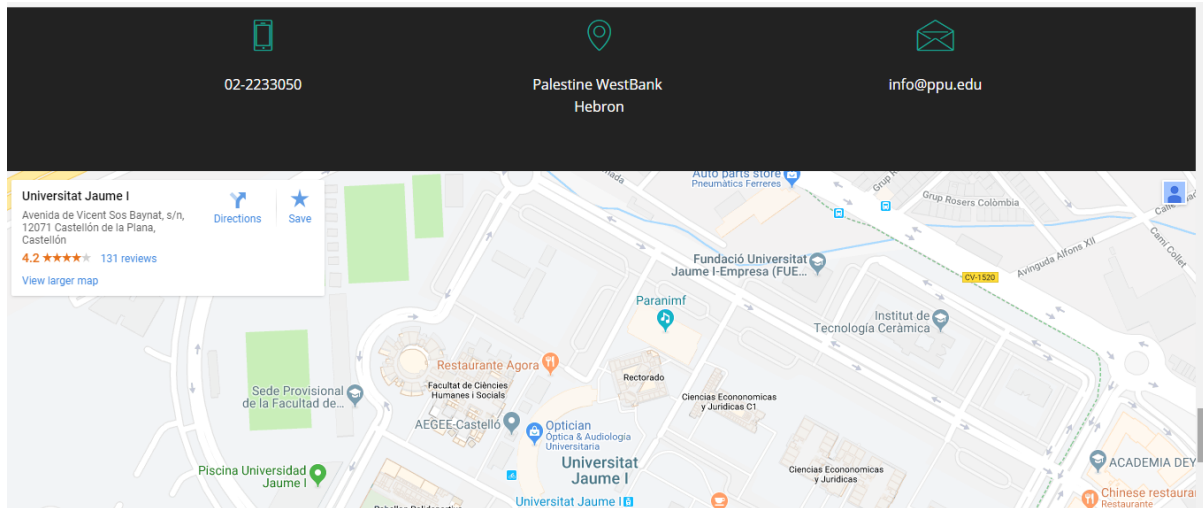

11. Add the personal email address to the php code for enabling the communication through the contact form.

Contact

YOUR NAME	EMAIL
SUBJECT	
YOUR MESSAGE	
SEND MESSAGE	

12. Modify the map.js with location information and required zoom level for the address

However according to the missing of the Google key the map shows with (For development purpose only label)

15. Additional modification add the bootstrap css and java script to the html page .

```
<!-- Css -->
<link href="css/style.css" rel="stylesheet" type="text/css" />
<link href="css/bootstrap.css" rel="stylesheet" type="text/css" />
<link href="css/plugins/animate.css" rel="stylesheet" type="text/css" />
<link rel="stylesheet" href="https://stackpath.bootstrapcdn.com/bootstrap/4.3.1/css/bootstrap.min.css" integrity="sha384-ggOyR0iXCbMQv3Xipma34MD+
ad>
y class="wow-animate">
```

```
<script src="js/theme.js" type="text/javascript"></script>
